

I 400 Welcome Exam

1. In a fully activated incident organization, the responsibilities of the Incident Commander are: (check all that apply)
- Order all supplies
 - Approve requests to release resources
 - Coordinate Technical Specialists
 - Approve the Incident Action Plan
 - Determine radio frequencies to be used
 - Maintain cost records
 - Direct tactical air operations
2. Deputy Incident Commanders must always be from the same agency or jurisdiction as the Incident Commander.
- True
 - False
3. Deputies and assistants have the same qualifications and can be used interchangeably on an incident.
- True
 - False
4. In the Incident Command System, a deputy is fully qualified to take over the assigned position.
- True
 - False

20. Technical Specialists may function as a separate unit within the Planning Section, or be assigned to other parts of the organization.
- True
 False
21. Unit-to-unit communication can be made across functional organizational lines for purposes of information exchange.
- True
 False
22. Duplication or copy services are provided by the _____
Unit in the _____ Section.
23. The _____ Unit is responsible for the development of the incident check-out function for all units.
24. The Logistics Section may be divided into two branches:
25. All off-incident resources, are ordered through the Supply Unit.
- True
 False
26. Security for incident support facilities is provided by the _____
Unit.
27. The service and fueling of all mobile equipment is the responsibility of the _____
Unit.
28. Development of the Incident Traffic Plan is the responsibility of the _____
Unit.

1. Indicate which of the following are important considerations associated with preplanning an event.

_____ Type of incident or event

_____ Location, size, expected duration

_____ Single or multi-agency

_____ Single or multijurisdiction

_____ Kind, type, and number of resources required

2. List three things that often characterize incidents.

3. Resources that have first-in responsibility will often have to establish the initial incident organization.

_____ True

_____ False

4. Five factors were listed as important to Transfer of Command. List three.

5. Which seven of the following are essential actions to immediately accomplish on unplanned incidents?
- Sizeup the situation.
 - Determine if there are lives at immediate risk.
 - Establish the immediate objectives.
 - Immediately establish length of Operational Period.
 - Determine if there are enough and the right kind of resources on-scene and/or ordered.
 - Consider if span of control is or soon will approach practical limits.
 - Prepare the written action plan.
 - Ensure that personnel safety factors are taken into account.
 - Establish if there are any immediate environmental issues to be considered.
 - Prepare for press tours, photo opportunities and media briefings.
6. The incoming IC can change the action plan for the incident:
- Only at shift change
 - Only at a new Operational Period
 - With approval of Agency head
 - When deemed essential
 - With the consensus of the General Staff
7. The ICS Form 201 is used for:
- Ordering Resources
 - Major medical emergency plan
 - Incident Briefings
 - Demobilization
8. Which section in the ICS organization generally builds from the bottom up?

9. The primary consideration for the Incident Commander in deciding to expand the organization to use Divisions or Groups is usually:

10. In one word, define:

Divisions : _____

Groups: _____

11. Branches in the ICS organization may be:

- _____ functional
- _____ geographical
- _____ jurisdictional
- _____ none of the above

12. The outgoing IC on an incident may remain in the incident organization.

- _____ True
- _____ False

13. Which one of the following is correct ICS terminology?

- _____ Branch Leaders
- _____ Division Managers
- _____ Group Supervisors
- _____ Command Staff Directors
- _____ General Staff Officers

14. Deputies may be used at General Staff, Branch, and Division levels in the ICS.

- _____ True
- _____ False

13. Name the three incident locations where incoming tactical resources will normally be initially assigned.

14. Out-of-service resources not being used during the current operational period are normally assigned to:

15. Single resources must be formed into Task Forces or Strike Teams prior to assignment into a Staging Area.

_____ True
_____ False

16. The authority to establish, move, or discontinue staging areas rests with:

17. Give two reasons why resources are assigned to staging areas.

18. Task Forces and Strike Teams assembled at an incident staging area should always be disassembled: (check two)

_____ At the end of each Operational Period
_____ At the completion of the incident
_____ When placed out-of-service at the Base
_____ When no longer required

1. List four kinds of incidents which typically use aviation resources.

2. Prior to activation of the Air Operations Branch, management of air operations is the responsibility of:

3. All incidents using aircraft require that an Air Operations Branch be established.

_____ True

_____ False

4. Name the two primary supervisory positions that can be activated under the Air Operations Director.

5. Helibase/helispot operations are the responsibility of the:

_____ Air Support Group

_____ Air Tactical Group

1. Only incidents expected to last over twelve hours require an Incident Action Plan.

_____ True
_____ False

2. The Action Plan for some incidents can be passed to subordinates in the form of a briefing.

_____ True
_____ False

3. Action Plans should be prepared for specific periods of time called:

4. Written action plans should generally be used when: (check all that apply)

_____ The Planning Section Chief wants it.

_____ The incident goes into a new Operational Period.

_____ Aircraft are being used on the incident.

_____ Two or more jurisdictions are involved.

_____ Staging Areas or camps are being used.

_____ There is a large ICS organization in place.

15. In the table below, fill in who has primary responsibility. If shared, list others.

| NO. | ACTIVITY | PRIMARY RESPONSIBILITY |
|-----|--|------------------------|
| 1 | State Incident Objectives - Policy Issues. | |
| 2 | Give situation and resources briefing. Conduct planning meeting. | |
| 3 | State primary and alternative strategies to meet objectives. | |
| 4 | Designate Branch, Division, Group boundaries and functions as appropriate. | |
| 5 | Describe tactical operations and tactics. | |
| 6 | Make tactical resource assignments. | |
| 7 | Specify reporting locations and additional facilities needed. | |
| 8 | Develop the resources, support, and overhead order. | |
| 9 | Consider support requirements because of Communications, Traffic, Safety, Medical Plans. | |
| 10 | Finalize, approve, and implement the plan. | |

Please complete the attached **T Card** with the following provided information:

| | |
|---------|-------------------------------------|
| Leader | I. Chief |
| Base | Cape May |
| Engine | Cape May Cty. Engine 77 is a Type 1 |
| ID # | E - 10 |
| Order # | 7321AB |
| Crew | J. Big, R. Small, M. Hoser |

Engine left from Cape May on 1/10/00 and is going to an incident in Freehold. The engine is set to arrive at 1830 hours.

At 1900 hours on 1/10/00 E - 10 was assigned to Division B for a pumping assignment from a dry hydrant on Wet Road and Big Creek.

At 0100 hours on 1/11/00 E - 10 is reassigned to Division C for ember patrol on Jones Street to protect threatened structures.

In reality, what ICS form would be used to obtain this relevant information for completing an appropriate T Card?

This Incident Action Plan is for what date?

What is the operational period?

What tactical frequency is being utilized by Division W?

What is the importance of a safety message?

How many Divisions/Groups have been implemented?
What are their designations?

What local hospital has been identified in this Action Plan?

Why is a Unit Log attached? What purpose does it serve?

Give a synopsis of the weather forecast?

Who is the leader of Engine B 43?

Engine B 2 is assigned to what division?

SAFETY MESSAGE

Work safely at all times, wear proper PPE

Stay on roads and plow lines as much as possible-when moving off those areas keep your distance from all ordnance and communicate what might be a potential problem to your DIVS.

EACH DIVS: Remember to conduct a tailgate briefing prior to deployment.

Maintain communications with one another on the proper radio frequency, be aware of changing weather conditions, know where your crew and adjacent crews are working at **ALL TIMES**.

Use this RX6 as the training tool it is meant to be!!!!

WORK TOGETHER BE SAFE ENJOY

Jim Petrin
Safety Officer
