Day	Date	Time	Title	Presenter	Site	CEU's	Course #	Class ID
Monday	5/9	6:30-8:30 pm	START & Jump START Triage	J. Krautle T. Ruane	MCHD	pending		
Tuesday	5/17	6:30-8:00pm	Outbreak Investigation II <b>Note: Outbreak Investigation I is a pre-Requisite for this class</b>	P. Subramanya	MCHD	pending		

**Antiretroviral Management:** The goal of this program is to update health care providers with the most recent information related to the safe management of antiretroviral medicines

**Advanced Media and Spokesperson Training:** This course is intended to prepare people to present information to the public using risk communication techniques. A town meeting and press conference situation will be used. **Course is by invitation only.**

**Action for Fitness: Practical Steps for Combating Childhood Obesity:** This program

**Inclusive Just in Time Training (IJITT):** An introduction to IJITT, a model based on best practice and adult learning theory will be provided.

**Measures to Prevent Diseases Associated with Animals in Public Settings:** Subject matter experts will discuss the importance of public health reporting of clusters of illness associated with animals in public settings and review CDC and National Association of State Public Health Veterinarians recommendations to minimize associated disease and injury risks related to animals contact.

**Children with Chronic Respiratory Complaints: When does Normal become Abnormal?:** Chronic Respiratory Diseases of Children will be examined.

**START & JumpSTART Triage:** This course describes the process for sorting injured people into groups based on their need for or likely benefit from immediate medical treatment.

**Outbreak Investigation II:** This course examines the changing nature of outbreak epidemiology. A specific disease will be used as an example in this class. A **pre requisite for this course is Outbreak Investigation I.**
