Welcome to Perrineville Lake Park
Beautiful woodlands, natural/agricultural fields, and a picturesque lake meet here on 929 acres in the heart of quiet Millstone. Nearly 5 miles of multi-use trails are a favorite among area equestrians, dog owners, and anyone wishing to take a scenic stroll. Fishing and boating on Perrineville Lake is common during the warm weather months.

A Fast Growing Park
While many county parks take decades to expand, this one developed rapidly during the early 2000s. The first two parcels (just over 90 acres) were purchased in 1999 and within ten years, the property topped 900 acres. In terms of size, Perrineville Lake is now one of the largest county parks.

Fishing & Boating on Perrineville Lake
Cartop vessels such as canoes/kayaks, as well as electric-powered fishing boats are permitted on this calm, 15-acre lake. Species of fish caught in these waters include catfish, panfish and bass. Keep an eye out for turtles that favor the fallen logs at the lake's edge. NJ State fishing licence required.

Programs, Classes, Activities & Rentals
The Park System publishes a seasonal Directory containing more than 4,000 programs offered throughout the parks each year; subscription is free. Large group events, room rentals and weddings are also available. Visit us online to learn more about the 39 parks, recreation areas and other open spaces of Monmouth County.

Former Farmland & New Forest
Many of this park's forests are young—having grown out of agricultural land that was farmed until relatively recently. Some fields are managed as grassland habitats for local bird species and a few are leased out for continued farming. An array of different grass and shrub species can be found in and around the fields. Birders can search for wild turkeys and quail, brown thrashers, red-headed woodpeckers, bluebirds and a variety of warbler species.

Protect Your Parks
The Park System preserves and manages natural and cultural resources on more than 15,000 acres of land in Monmouth County. Protecting water quality, eliminating invasive plant species, and promoting healthy wildlife habitats are just a few objectives. Please help protect the park by leaving flowers, plants, animals, and other features as you found them; adhering to posted park rules; using designated containers for trash, recyclables and pet waste; and keeping your pets leashed. Alcoholic beverages are not permitted.

An overabundance of white-tailed deer in and around this park is threatening the health of native plant and animal species. Portions of Perrineville Lake Park may be open for bow hunting of deer during all or some of the State-regulated hunting season. All hunting areas are clearly posted. Call (732) 842-4000, ext. 4237, or visit www.monmouthcountyparks.com for more information.
A NJ state fishing license is required for anglers age 16-69.

**Trail Key**

- **Multi-use:** open to hikers/bicyclists & equestrians
  - **Rocky Brook:** This moderate 2.4 mile trail meanders past a fishing pond, through forest and agricultural fields on its way out to North Rochdale Ave. A 0.4 mile spur connects the trail to Assunpink WMA.
  - **Lakeside Loop:** Follow an old farm road with views of Perrineville Lake on this moderate 1.5 mile loop.
  - **Pine Creek Trail:** Walk this moderate 1 mile trail through fields and tall pines.
- **Pedestrian only:**
  - **Quail Run:** Follow this 0.5 mile path to extend your forested walk along Rocky Brook.

**Trail Standards**

- **Easy:** short, well-maintained or paved trails intended for casual walking
- **Moderate:** longer trails with some grades/obstructions; intended for hiking (may be suitable for some walkers and runners)
- **Challenging:** long, more primitive trails with steep grades, obstructions; intended for hardy, experienced hikers
