

FOCUS GROUP STUDY SEEKS PARTICIPANTS

Ocean and Monmouth Counties Emergency Management Personnel

Have you experienced coastal flooding?
Do you rely on flood warnings and alerts to know
when to prepare? Do you wish you had more information
to share with your community about flood risk?

USGS

Nurture Nature Center is recruiting participants for a focus group, as part of a research project with National Oceanic and Atmospheric Administration, about the use of National Weather Service flood forecast and warning tools.

Emergency Management Personnel should live/work in the Monmouth or Ocean Counties and be at least 18 years of age. Participants will be asked to answer questions and provide input about various flood warning tools and products issued by the National Weather Service.

Each participant will receive \$30 for their time. Coffee and light refreshments will be provided.

This flyer was prepared by Nurture Nature Center using federal funds under the Coastal Storm Awareness Program (NOAA awards NA13OAR4830227, NA13OAR4830228, NA13OAR4830229) from the National Sea Grant College Program, National Oceanic and Atmospheric Administration, U.S. Department of Commerce. The federal funds were provided via appropriations under the Disaster Relief Appropriations Act of 2013 (P.L. 113-2) and the Sea Grant Act (33 U.S.C. 1121 et seq.) Funding was awarded to the financial hosts of the Sea Grant College Programs in Connecticut, New Jersey and New York via their financial host institutions, the University of Connecticut, the New Jersey Seagrant Consortium, and the Research Foundation of State University of New York respectively. The statements, findings, conclusions, and recommendations are those of the author(s) and do not necessarily reflect the views of the National Sea Grant College Program, National Oceanic and Atmospheric Administration, the U.S. Department of Commerce, nor any of the other listed organizations.
