

Roused for Rivers? Swayed by Bays?

Raise your voice!

From Poughkeepsie to Perth Amboy, from the Bronx to the Bayshore, the NY-NJ Harbor and Estuary Program wants your vision to shape its upcoming Action Agenda.

On May 26, 2016, from 7-9 PM, join the Monmouth County Environmental Council and HEP for a public workshop about the needs of the Navesink River Watershed, the Raritan and Sandy Hook Bays, and the greater NY-NJ Harbor & Estuary at Atlantic Highlands Senior Center, 3 Simon Lake Dr., Atlantic Highlands, NJ 07716.

We'll be talking about...

Water Quality

Habitat Restoration

Public Access

Sediment and Ports

Public Education

The New York-New Jersey Harbor and Estuary Program (HEP) is a partnership of government agencies, civic organizations, and scientists that work towards a common to-do list for improving the waters, waterfronts, and watersheds of the NY-NJ Harbor and Estuary. HEP's 2017 Action Agenda – a critical mandate of the Clean Water Act – will guide how HEP uses its funding, programmatic, and research capacities to carry out those shared goals.

The Monmouth County Environmental Council advises the Monmouth County Planning Board on environmental matters such as water resources and unique areas, and acts as a liaison between the Planning Board, municipal environmental commissions, and other environmental organizations within the county.
