

FOCUS GROUP STUDY SEEKS PARTICIPANTS MONMOUTH & OCEAN COUNTY RESIDENTS

Anthony Quintano

**Have you experienced coastal flooding?
Do you rely on flood warnings and alerts to know when to prepare?
Do you wish you had more information about your flood risk?**

Nurture Nature Center is recruiting participants for two focus groups, as part of a research project with National Oceanic and Atmospheric Administration, about the use of National Weather Service flood forecast and warning tools.

Participants should live in the Monmouth or Ocean Counties and be at least 18 years of age. Participants will be asked to answer questions and provide input about various flood warning tools and products issued by the National Weather Service.

Each participant will receive \$30 for their time. Coffee and light refreshments will be provided.

Register online at socialscience.focusonfloods.org
or call 610-253-4432

Monday, November 3rd:

Brick Township Library (Event is not sponsored by the Ocean County Library System)

301 Chambersbridge Rd, Brick, NJ

Please indicate which session you would like to attend:

Session #1: 1:00 p.m. to 3:00 p.m.

Session #2: 6:00 p.m. to 8:00 p.m.

Registration recommended, but not required. Space is limited.

The Nurture Nature Center is a non-profit organization whose focus is on flood education.

This flyer was prepared by Nurture Nature Center using federal funds under the Coastal Storm Awareness Program (NOAA awards NA13OAR4830227, NA13OAR4830228, NA13OAR4830229) from the National Sea Grant College Program, National Oceanic and Atmospheric Administration, U.S. Department of Commerce. The federal funds were provided via appropriations under the Disaster Relief Appropriations Act of 2013 (P.L. 113-2) and the Sea Grant Act (33 U.S.C. 1121 et seq.) Funding was awarded to the financial hosts of the Sea Grant College Programs in Connecticut, New Jersey and New York via their financial host institutions, the University of Connecticut, the New Jersey Seagrass Consortium, and the Research Foundation of State University of New York respectively. The statements, findings, conclusions, and recommendations are those of the author(s) and do not necessarily reflect the views of the National Sea Grant College Program, National Oceanic and Atmospheric Administration, the U.S. Department of Commerce, nor any of the other listed organizations.
