

4-H TEEN COUNCIL SEEDLING SALE

Available now through April 11, 2012

Evergreen and Deciduous seedlings are once again available by advanced order from the 4-H Teen Council of Monmouth County. This year we are selling four types of evergreens: Colorado Blue Spruce, Norway Spruce, White Pine and Douglas Fir, Kousa Dogwood, Silky Dogwood and Redbud are deciduous offerings.

Evergreens are available in bundles of 25 seedlings of one variety. Deciduous seedlings are sold in bundles of 10 seedlings of one variety. All seedlings are one to three years old and approximately 6-24 inches tall.

Pickup date is Sunday, April 21st at the 4-H office, rear of the Agricultural Building, 4000 Kozloski Road, Freehold, New Jersey from 9:30AM-1:00PM. Please bring a box if you have a large order. We will not be responsible for trees not picked up on the April 21st, 2012.

Please make checks payable to "4-H Teen Council" Mail checks to: 4-H Office, Rutgers Cooperative Extension of Monmouth County, 4000 Kosloski Road, Post Office Box 5033, Freehold, NJ 07728. If you have any questions, call the 4-H office at (732) 431-7263.

COLORADO BLUE SPRUCE (*Picea pungens*)

This is one of the most popular ornamental evergreen trees because of its blue color and dense symmetrical growth habit. It will grow to be 60 feet tall. This slow-growing tree is a beautiful accent to any yard.

NORWAY SPRUCE (*Picea abies*)

This is a popular, fast growing, pyramidal evergreen tree which reaches a height of 40-60 feet. It is easily grown, and will tolerate a wetter soil than the other trees listed.

WHITE PINE (*Pinus strobus*)

This rapid growing pyramidal evergreen tree is one of our most durable native pines. It has delicate, soft green, graceful foliage. It is excellent as a background tree or for use as a screen. The mature height is 70-100 feet. Space trees 10-25 feet apart. It will not tolerate wet soil.

DOUGLAS FIR (*Pseudotsuga menziesii*)

A pyramidal “Christmas Tree” that grows to about 40 or 50 feet tall. Needs sun and good well-drained soil. Not wet or dry site tolerate.

KOUSA DOGWOOD (*Cornus kousa*)

This oriental species of dogwood is more pest resistant and drought tolerant than our native dogwood. The creamy white flowers appear in mid-June and can persist for up to 6 weeks. The fall color is a reddish purple. This slow grower prefers a well drained acid soil in sun or light shade and will grow to 25 feet in height with an equal spread.

SILKY DOGWOOD (*Cornus amomum*)

Silky Dogwood is a native multi-stemmed, deciduous shrub reaching 6-10 feet tall and wide. Yellowish – white flowers in May – June, followed by blue berries in August that will attract birds. Wet site and shade tolerant.

REDBUD (*Cercis canadensis*)

Eastern Redbud is a native multi-stemmed deciduous shrub which is drought tolerant... This ornamental has an upright vase shape growth habit and displays pink-lavender flowers in the spring. Redbud is a smaller scale bloomer that reaches 15ft. tall and 15ft. wide which works well in smaller gardens. Plant in neutral soil with full to part sun.
