

## **Board of Agriculture - OBJECTIVES**

- To assume leadership in planning programs related to agricultural and rural issues
- To aid the farmers of the county in the development of the most profitable and sustainable types of agriculture
- To help investigate and solve technical problems relating to crop production
- To promote among young people a genuine interest in farming and rural life
- To report to the State Secretary of Agriculture annually the results of agriculture and horticulture industries in the county
- To cooperate with other interest groups, agencies and organizations as may seem desirable for the accomplishment of the objectives outlined above
