

PER-228

The **National Center for Biomedical Research and Training (NCBRT)** at **Louisiana State University** invites you to join us for a unique training opportunity. The NCBRT is offering the following Department of Homeland Security (DHS) certified course:

## Advanced Forensic Investigations for Hazardous Environments

(PER-228)

This course addresses response in a hazardous environment, with emphasis on evidence collection and recovery, as well as the paradigm shifts that are required for crime scene investigators to safely conduct a crime scene investigation in these type of environments. The course is designed so that participants will develop the required knowledge, skills, and ability to investigate a chemical, biological, radiological, nuclear, and high-yield explosive (CBRNE), toxic industrial chemical (TIC), or hazardous environment crime scene for the identification, documentation, presumptive field testing, preservation, and collection for laboratory analysis of CBRNE/TIC and non-CBRNE/TIC forensic evidence.

**Professional Disciplines:** Law Enforcement, Fire Service, Hazardous Materials

The target audience for the **Direct Delivery** version of this course is Crime Scene Investigators (CSIs), Crime Scene Technicians and Crime Scene Analysts who are trained to work with all of the following types of evidence as part of his/her job requirements:

- Crime scene photography
- Crime scene mapping/sketching
- Latent fingerprints
- Hair and fibers
- Serological evidence
- Trace/transfer evidence
- Impression evidence
