CEHA Hazmat Programs

- The County Environmental Health Act (CEHA), N.J.S.A. 26:3A–21 et. seq., provides the organizational structure for coordinating environmental health activities in each county, including hazmat emergency response.
- CEHA provides a system to build State/local partnerships to effectively address environmental health issues.
- MCHD has been providing environmental health services under CEHA since 1985.

County Hazmat Responsibilities

- To develop and maintain standardized county-wide hazmat and CBRN emergency response capability, capacity, and competence.
- To maintain a core of trained and equipped personnel capable of responding to hazmat and CBRN incidents throughout New Jersey.

The Link Between Hazmat Response and Health

- We need to focus on incident containment & control AND assessment of environmental & public health impacts.
- It is imperative that the CEHA agency is aware of every incident and has the opportunity to determine whether an assessment is warranted on a case by case basis.
- How to address: Call in each incident to the CEHA agency so they can decide whether an assessment is needed.

Upon receiving information regarding any type of hazardous release into the environment, we encourage everyone to report the incident immediately thru 9-1-1 and to your CEHA agency.

- Monmouth County Health Department:

(732) 431-7456

or

- Monmouth County Police Radio Room:

(732) 577-8700

- Also notify the NJDEP hotline at:

1-877-WARNDEP (1-877-927-6337)

Our County Partners

In accordance with our CEHA agreement, MCHD coordinates with the Monmouth County Office of Emergency Management (OEM) and local hazmat response units to develop and maintain an integrated emergency preparedness system throughout the county. Currently, there are written agreements in place with the following hazmat units in Monmouth County to provide mutual aid and equipment when requested:

- Howell Township OEM Hazmat Unit
- Middletown Fire Department Special Services Unit
- Neptune Township OEM Hazmat Unit
- Southard Fire Department Hazmat Unit
