ADDRESS PROF. H. B. CORNWALL, PRINCETON, N J.

JOHN C. GREEN SCHOOL OF SCIENCE, PRINCETON UNIVERSITY.

Feb. 6th 1903

Mr. G. V. W. Burroughs
Manasquan, N. J.

Dear Sir:

The samples of water received by me for examination, Jan. 6th 1903, yielded the following results:

Per 100.000 Parts.

Sample.	Free Ammonia.	Albuminoid Ammonia.	Oxygen Consumed.	Nitrogen in Nitrates and Nitrites.	Chlorine.	Hardness.	Total Solids.
	0.0093	0.0057	0.099	0.174	1.02	2.07	6.8

Remarks. The water was free from Nitrites. It was almost perfectly clear and colorless. It had a distinct woody odor, not offensive - The analysis shows no indication of any sewage, drainage or other injurious contamination - The water is fairly pure also, as regards organic matter, indicated more especially by the figures for Albuminoid Ammonia and Oxygen consumed - See also my accompanying letter.

Very Respectfully,

H. B. Cornwall

I would suggest regraveling that part of North Main St. and South St. which in your Judgement needs it also Potter ave also make some arrangement whereby Colby ave can be widened from Main St. to the N. Y. & L B. R R also use your best Judgement to bring about a Connection between Taylor ave and the State Camp Road Put all roads in the Borough in good repair provided you do not put any unnecessary expense on the Roads that have been given to the County namely Broad St. ~~from~~ Main St. from Broad to Union ave and Union ave Also give the pumping Plant your attention so that you can use it as soon as the dust gets bad
The Sidewalk Com" has much to look after I recomend that they go over the walks of the Borough and bring in a list to the Clerk of the walks that need repairs I would ask the Curb Com" to request all persons owning Lots facing on streets named below to put down Curbs On North Main St where it Connects with Central ave on East Main St as far as the N. Y. & L B. R. R. on South Street as far as Morris ave on Broad St to the P. R R I believe it will be well to have Side walks on a part of Parker ave

COUNCIL PROCEEDINGS.

A regular meeting of Council was held on Tuesday evening, Mayor Woolley presiding. Councilmen Taylor, Morton, Miller, VanHouten and Pearce were present.

A. Howell Miller was appointed clerk pro tem. in the absence of Clerk Mount, who arrived later.

The minutes of the last meeting were approved as read.

Chairman Taylor of the Light committee reported about all the lights burning again now, but shortly after the last meeting all the the lights were out for a night and there was considerable trouble with them for a few nights afterwards. Mr. VanHouten asked if the Committee had particularly noticed the lights lately. Mr. Taylor replied that he had noticed that the lights were dim, but so far as he knew the lights were all burning excepting one on Main street at Pearce avenue.

Mr. VanHouten said that he did not believe that the Borough was getting what they were paying for as the lights were only about one-half power. He favored giving the Light Company to understand that Council knew we are not getting what we should have. The Light committee was instructed to see the superintendent of the Light Company in reference to the matter.

The Finance committee reported the following bills found correct and approved:

C. B. Poland, payroll for work on streets	$26.43
C. B. Poland, sprinkling streets	36.40
Lewis J. VanDusen, trimming trees	3.00
Manasquan Hook and Ladder Co., No. 1, six months rent	37.50

Moved by Mr. VanHouten that the bills be paid. Ordered.

Moved by Mr. Taylor that the Borough Clerk be authorized to procure the Comptroller's book of the ex-clerk. Motion carried.

It was reported that complaints had been made about the sprouts on either side of North Broad street. It was stated that the sprouts obstruct the view so that accidents to carriages are liable to occur at the corner.

The clerk stated that Capt. W. V. Pearce, the owner of the property, had had sufficient and proper notice to have the sprouts removed.

Moved by Mr. VanHouten that the street commissioner be instructed to remove the sprouts from the sidewalks on North Broad street and that the expense be charged against the property. Motion carried.

The clerk read the affidavits of publication of the special election notices, as required by law, in the MANASQUAN NEWS, and signed by the publisher of said paper.

On motion the affidavits were received and ordered made a matter of record.

To the Honorable Mayor &c:

Thanks to some inventive mind, a new material for street sprinkling is on the market—waste paper—the material furnished by the agent of the Prudential Ins. Co. and distributed by Mr. E. Borden; but why he should have chosen East Main street for the first application of the same passes our imagination, as it would better answer its purpose in the open square that is so well lighted, and where it could be appreciated by the people as well as by the Mayor and Council, particularly the Street Committee.

We object to the above mode of sprinkling. We cannot have what we want, which is water, and we strongly object to waste paper.

The agent can identify his property, as we have by sorting a little found his postals and old envelopes—about a barrel or more. It is well scattered along the street.

Moved by Mr. Miller that the clerk be instructed to communicate with the president of the Shore Gas Company, stating that the Company's pipes are an obstruction on our streets and requesting that the pipes be buried or removed within ten days. Carried.
